NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the 'Net Promoter' scoring methodology to a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method.

The percentage measures are calculated as follows:

Recommended (%) =
$$\frac{\text{very good} + \text{good}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

Not Recommended (%) =
$$\frac{\text{very poor} + \text{poor}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:

Not Recommended

- ✓ Everyone always helpful.Today, I was in the right place at the right time to listen to an older gentleman who was also in the waiting room. That was an added bonus.
- ✓ The Doctor I seen always makes me feel uncomfortable. I've Seen her before and shes patronising and not as caring or friendly as other doctors. It felt like I was wasting her time and felt like she couldn't wait to get us out the door.Won't book in again if she's the doctor my appointment is with. Find her rude and certainly isn't friendly with kids
